

## Meeting Agenda

Date: 9/5-2013

Facilitator: Sara

Participants: Patricia, Sara, Danny, Laszlo

### 1. Objectives (5 min)

Hard to work towards GUI when not finished, should have an Interface.

### 2. Reports (15 min)

Sara has met much with her tests.

### 3. Discussion items (35 min)

(a) What is DocumentView?

It is a view for handling the GUI representation of a Document, used for getting the JComponent of the Document.

(b) Create an Interface for the MainView.

(c) Weekend workshop, who is up for it?

(d) We need to get working on SSD and RAD.

### 4. Outcomes and assignments (5 min)

(a) Danny looks up how to startup in maximized window mode.

(b) Work on documentation during weekend workshop, next week also.

(c) Laszlo should make a test for PDF handling, checking whether file was created or not.

(d) Laszlo outlines printing function.

### 5. Wrap up

(a) Next meeting, next Friday, 17/5, and Sara brings the grub.
