Meeting Agenda

Date: 21/3-2013
Facilitator: Danny
Participants: Patricia, Danny, Laszlo, Sara

1. Objectives (5 min)

We need a GUI to work with.

2. Reports (15 min)

We have done our assignments. RMImage and SDD are not finished but need other things for that.

3. Discussion items (35 min)

a) The model should probably be updated first and then the view is repainted accordingly.

b) Maybe we should do Worskshop 3 about plug-ins.

c) Lazslo should breef us about the PDF-experiment.

4. Outcomes and assignments (5 min)

a) Patricia will start creating the GUI and when Danny has put together his IO-work with Lazslo's he will help.

b) Everyone should look more at the seequence diagram Sara made, but this will make more sense once we have a GUI.

c) Everyone should look at the SDD!

5. Wrap up

a) We didn't do any tests. Do more JUnit tests! Try to do some on your part..

b) Next meeting, on Friday 10/5
