Meeting Agenda

Date: 24/05-2013
Facilitator: Danny Lam
Participants: Danny Lam, Patricia Paulsson, Laszlo Sall Vesselenyi, Sara Nadi

1. Objectives (5 min) Resolve any issues preventing the team to
   continue (this should be possible to verify at next meeting,
   short clear description, use issues from project site).

Patricia: Has reached her goal but it could be improved by adding creativity.
Laszlo: Issue in get the program to save in the application format, meaning a project file.
Danny: Issue in removing more than one character.
Sara: Gui related, the updates are not shown in toolbar and when changing templates.

2. Reports (15 min) From previous meetings, (un)solved issues,
   etc. , see also4

Patricia: Worked with the project report. Has done her part to some extent, however, some last finishes are to be made.
Laszlo: Worked with IO, meaning, getting the application to save as a project file. Everything which is needed is now located in the master branch.
Find Bugs application has been downloaded and is easy to use.

Danny: Worked undo/redo to remove more than one character at the time.
Sara: Worked with toolbar updates & changing templates.

Patricia & Laszlo fixed pdf handling, only need to format the size.

3. Discussion items (35 min)

(a) Picture for the title of the report. A vote is to be made.

(b) Read the report.

4. Outcomes and assignments (5 min)

(a) Patricia is given the task to implement change template further.
(b) Sara will continue working on updating the toolbar items related to the textsections.

(c) Laszlo will continue with the IO (implement open, save-function to work)
(d) Danny will continue research on how to undo a text, instead of characters.
(e) Everyone will work with the report today. Read the whole report first.
(f) Discuss RAD & SDD after the report.

5. Wrap up

Next meeting will be 25/5 (tomorrow), meeting 13:15
